Export Services

Taking Indian Excellence to the World Stage

Global trade isn't about shipping products.
It's about **moving trust, quality, and ambition across borders.**

At **Shrivatsa**, we help Indian manufacturers and brands enter Europe and global markets with confidence, compliance, and clarity. From first shipment to full-scale expansion, we manage every layer of the export journey.

What We Do

European Regulatory & Product Certification

We handle CE, EU food-grade, packaging, sustainability, and compliance standards — so your products meet European expectations before they ever leave India.

Market Entry Strategy

We don't guess markets. We analyze demand, pricing, competitors, and buyer psychology to position your product where it wins.

Documentation & Trade Compliance

From invoices to HS codes, from customs declarations to country-specific rules — precision is non-negotiable. We ensure zero friction at borders.

Freight & Cargo Optimization

Sea, air, rail — optimized for cost, speed, and risk. We protect margins while protecting goods.

European Distribution Network Setup

Your products don't stop at ports. We connect them to distributors, retailers, and platforms across Europe.

From a container in India to shelves in Europe —
Shrivatsa makes your success travel flawlessly.
